

Quality Policy

【Management Philosophy】

【Quality Policy】

All staff will participate in executing the "develop, product, and sell" cycle, to provide products and services that satisfy our customers.

Health and safety are our top priority.

1. We will build strong cost structures to boost our profitability and improve our financial constitution.
2. We will actively develop technologies and products to reduce our burden on the environment.
3. We will provide people with optimal products and services by fully utilizing the resources of the Nippon Light Metal Group.
4. We will actively expand our business overseas, focusing on China and North America.
5. We will clarify, review, and ensure that we meet our customers' requirements.
6. We will continuously improve our quality management system.
